

Subject: 19CSE456

Lab Session: 02

Notes:

1. Please read the assignment notes carefully and comply to the guidelines provided.
2. A report should be prepared for questions available in “Report Section” of this assignment & submitted to TurnItIn.
3. The report should not have any content (text, figures, photos etc.) copied from any source outside your work. Please provide results obtained from your experiment to support your statements.

Main Section (Mandatory):

Please work on creating a plan for your project. Submit the report with your project details and execution plan.

A1. Perform the following actions

- Select a project title
- Perform search for relevant literature in IEEEXplore or/and Elsevier sites. Identify 20 papers relevant for your project work. At least 4 of these papers should be journal papers.
- Study the format of writing a paper, its constituent sections and language used.

Report Assignment:

1. Provide a title of your project and write the introduction section of your project in IEEE format. Provide the list of reference papers identified from literature survey in the reference section. [4]
